

LESS ADMIN. MORE SALES.

MAKE SURE YOUR CRM CAPTURES WHAT MATTERS MOST — EVERY TIME.

Sales teams spend their day on calls - both fixed and mobile. But what happens after the call?

- Calls are not logged.
- Notes are incomplete or missing.
- Follow-ups depend on individuals.
- Opportunities slip through the cracks.

If it's not in your CRM, it doesn't exist.

Connect voice to your CRM and make every interaction count:

- Every call is logged automatically.
- Customer data and context appears in real time.
- No manual input required.
- Follow-ups are structured and tracked.

SMART CONTACT

LOST REVENUE, RECOVERED

Every day, you're losing up to one hour per user — without even seeing it. Add up to 200 hours per month for 10 people, the equivalent of an entire sales hire.

BETTER DATA. BETTER DECISIONS.

Sales teams spend their day on calls. But what happens after the call?

- **Real-time Contact context:**
Instantly display configurable contact info (name, company, title) without pop-ups.
- **One-click link to your CRM** is available to display additional contact details.
- **Automatic Call log:**
missed calls and respond quickly. Complete customer history is available in one place.
- **Conversation Data** and AI-based insights are added to your CRM instantly.

VOICE + CRM + AI BENEFITS

Complete and reliable data gives you the clarity to make better business decisions.

- Full visibility on all customer interactions
- Faster and more reliable follow-ups
- Better pipeline accuracy
- More time spent selling

QUESTIONS YOU MAY BE ASKING

Turning conversations into structured data unlocks immediate value for your customers:

- **"Is this complex to implement?"**
Works with your existing tools. Setup in just a few hours. No user training required.
- **"Will my team actually use it?"**
Nothing changes for users. Everything is automatic. No disruption.
- **"Do we really need this?"**
You are already losing time and opportunities every day.
- **"Will it fit our CRM?"**
Compatible with 200+ CRMs including Salesforce, HubSpot, Dynamics, Zendesk, Zoho.
